

# Mimansha Misra

I'm a BTech student studying Computer Science. I love learning about technology and want to make a difference in the field. I'm dedicated, curious, and excited to see where my journey in computer science takes me.

## EDUCATION

---

Siksha 'O' Anusandhan University (ITER)  
Bachelor of Technology in Computer Science Engineering

09/2021 – Present  
CGPA - 7.56

O.D.M. Public School  
12<sup>th</sup> grade with Physics, Chemistry, Mathematics

87.6%

Public School, Jeypore  
10<sup>th</sup> grade with Science, Social Science, Mathematics

89.8%

## PROJECTS

---

Heart Detection Disease ([Link](#))

- Performed Exploratory Data Analysis
  - Analyzed heart disease dataset using Pandas, Matplotlib, and Seaborn, generating insights through visualizations and statistical summaries.
- Ensured Data Integrity and Insights
  - Cleaned data by removing duplicates and visualized key health metrics, revealing patterns in heart disease prevalence and risk factors.

## Technical SKILLS

---

Language | Python

Database | MySQL

Framework | Numpy, Pandas, Matplotlib, Seaborn

Relevant Coursework | Data Structures, Algorithms, OOPS , Operating System, Computer Network

Elementary Knowledge | CCNA, Java

## CO – CURRICULARS

---

- Calligraphy
- Odishi
